

Oakland Husband And Wife Rescued

SPECIAL BY WIRE
TO THE TRIBUNE

NEWHALL, Dec. 11.—Mr. and Mrs. Sam Denton, formerly of 5224 Grove street, Oakland, are recovering in a local hospital today following a harrowing experience near here last night. They were rescued from exposure and possible death after their automobile was trapped by the flood waters of a cloudburst at Castiac.

As they reached a depression in the highway while driving out of an auto camp, water swirled about their machine and held them prisoners. The torrential flood had reached nearly to the top of their car when a rescue party reached them and helped them to safety. They are suffering mainly from shock and exposure.

The town of Castiac suffered considerable damage from the flood waters which swept down Violet canyon and flooded more than a half mile of the Ridge Route highway.
